## *Professional Summary*

Passionate Software Developer with a strong focus on SharePoint development and modern web technologies. I specialize in SharePoint On-Premise and SharePoint Online solutions, including branding and site customization, content management, access control, creating sites, webparts, Libraries and automate business processes using the Power Platform (Power Apps, Power Automate, Power BI), out-of-the-box (OOB) features, Visual Studio, SharePoint Designer, and Microsoft 365 to enhance collaboration and productivity. Additionally, I develop scalable full-stack applications using React, Node.js, Express, and MySQL, ASP.NET, webforms, JavaScript, HTML, and CSS ensuring performance, security, and excellent user experience. I enjoy transforming complex ideas into functional, efficient, and visually appealing solutions. I'm constantly learning new technologies and best practices to stay ahead in the rapidly evolving tech industry.

---
